## Ken Hemmings

*BDS, MSc, DRDRCs, MRDRCs, FDSRCS, ILTM, FHEA*

*Consultant in Restorative Dentistry*

Ken graduated with honours in Dental Surgery from Bristol University in 1982. Junior hospital posts followed at Bristol, Birmingham and Torquay before gaining a Registrar in Oral Surgery position at the Royal London Hospital. He gained his London fellowship in 1986 before entering the specialty of Restorative Dentistry.

Whilst studying for a two year MSc programme in Conservative Dentistry at the Eastman Dental Hospital he avoided financial destitution by working part-time as a Registrar and in general dental practice. He completed Senior Registrar training at the Eastman in 1993. He took up a full time consultant post in the departments of Conservative Dentistry and Periodontology in August 1995. He is recognised by the GDC as a specialist in Restorative Dentistry, Prosthodontics, Periodontology and Endodontics.

His research interests and publications have covered the management of tooth wear, hypodontia, tooth replacement and periodontal/restorative interactions. He has co-authored two books and the BSRD guidelines on crowns, fixed bridges and dental implants. He now shares his time between hospital and private practice. His wife and three children still make for a busy and fun home life. He has continued swimming and cycling and ventures onto the golf course when time allows.

## Harjot Bansal

*BDS, BSc, MFDS(RCS Eng), MPros, (RCS Eng), MCLinDent (UCL)*

*Specialist Prosthodontist*

Harjot has been working in the Berkshire and London area since 2016, and has been working as an in house specialist Prosthodontist taking internal and external referrals since 2023. He is known for his friendly, calm and compassionate nature.

Harjot spent 4 years working and training at the world-renowned Eastman Dental Institute in London treating advanced full mouth reconstructions in fixed, removable and implant dentistry. He is experienced in treating advanced toothwear, fixed-removable reconstructions, management of the failing dentition and replacement of missing teeth with dentures, bridges and implants.

Harjot also provides Invisalign clear aligners to straighten teeth without the need for conventional braces.

Harjot is a lecturer for newly qualified dentists and teaches for the South West Deanery. He has presented at conferences both nationally and internationally and has published in the International Journal of Oral and Maxillofacial Implants on zygomatic implants.

Away from work he enjoys to spend time with his wife, going for long walks and travelling as much as possible. Harjot is a big Liverpool fan and a keen skier.
